

Dear Preschool Families,

My name is Stephanie Wood. This is my second year at ECC. I taught in the "big" classroom last year as well. I have bachelors in Early Childhood Education and have worked with children for 17 years.

I am the mother of four boys and have a baby girl on the way. I am due in late November and will then be on maternity leave. My long term sub will be communicated to you prior to this date. My oldest Joey will be a senior at LSHS, Jake will be in 8th grade, Jackson in third and Jayden in Kindergarten. Jayden is a Pre-K graduate of OLP ECC. We are a soccer family and I spend most of my free time cheering on my boys at games!!

During this school year we will focus on strengthening the four learning developmental domains. The four domains are social/emotional development, physical development, cognitive development and language development. As you learn and explore Creative Curriculum you will gain knowledge on how these domains can be strengthened at home as well.

Pre-K should be a great start to a child's academic career and during this time a

lifelong love of learning should be encouraged.
