

Exciting new study... How Things Grow!!

During this study our classroom will be a very busy place. We will be observing how the following things grow...

Grass

Flowers

Chicks

Praying Mantis

Caterpillars/Butterflies

Ladybugs

Tadpoles/Frogs

Children will be predicting, observing and journaling what they see during each life cycle process. This study will encourage a lot of writing for a purpose. Also check out our word wall with new vocabulary words you might hear your children using!!
