Art Room Policies & Safety Procedures:

- ❖ Do not "mess around" in the classroom with scissors, rulers, erasers, or other tools etc.
- ❖ If unsure about how to use a tool or technique- ask!
- ❖ Keep your work area clean and leave it cleaner than you found it. Do your job!!!
- ❖ Never use products for skin painting

Studio Time:

- Your independent work on your projects will take the majority of the class time. While I expect a low noise level, you can talk to your classmates as you work or get out of your seat as needed for supplies.
- You may talk quietly during studio time.

Cleanup and Closure (C&C)

- The last 5-10 minutes of class is for cleaning up. Everyone is responsible for cleaning up/or completing their job, and leaving it cleaner than they found it. When you are asked to clean-up; **do so!** All class supplies should be returned in their appropriate place.
- You do not dismiss yourself from class, I do. **Absolutely NO lining up at the door or leaving the classroom e.g. for a drink or bathroom during clean up time!!! After the room is clean and supplies are properly put away, return to your seats put up your stools and stand where you sit until dismissal.**
