

What's Happening in Spanish Class

We are all back and getting into the swing of things. Seventh and eighth grade are doing some review and sixth grade is focusing on the alphabet. We will be moving right along as we become more comfortable with speaking in Spanish.

Students should be reviewing what we did in class together. Vocabulary is very important to the success of the Spanish student. Flashcards are a great idea. Many children can use these while traveling in the car to and from sports practice.

Here's to another great year at OLP!
