

Welcome to Our Lady of the Presentation ! This is my tenth year of teaching Math here at Presentation. And, as always, starting a new school year is exciting for both the teachers and the students. I want to personally welcome any new students and parents to our school. I am married and live with my husband, Don, in Overland Park, KS. Don is an Architectural Design Specialist with Burns & McDonnell . We have two grown children. Our oldest, Paul, is married to Shelley and they have a daughter named Harriet. She will be one year old in September. She is just adorable and her Grandpa and I enjoy spoiling her. Paul works for Garmin as a Software Engineer and Shelley left her teaching job to stay home when Harriet was born. Our daughter, Christine, is married to Thomas. Christine works at Commerce Bank and also goes to school part-time. She is working on her Bachelor's Degree in Personal Finance. Thomas works at Walgreens and is also in school finishing his degree to work as an X-ray Technician.

I truly enjoy working with Middle School students. They are challenging and delightful at the same time. It is a pleasure to work with all of the students and watch them develop in maturity as they move through the three years they spend with this group of teachers. Please don't hesitate to contact me if you have questions. E-mail is probably the best for me. I will do my best to contact you within a timely manner. I will be sending home a "Classroom Rules" with your child. Both you and your child need to sign and this sheet of paper needs to be stapled into your child's planner. I will be handing out some additional paperwork at our Middle School Parent Night on August 23. More information will come to you later about that evening. I hope to see you then !
